PROJECTS

01 AgroMitr — AI-Powered Agriculture Platform

- AI-driven agriculture platform focuses on intelligent farmer assistance and multilingual interaction.
- Designed accessible digital tools to make agricultural information easier to understand and use.

02 WeatherPro AI — AI Weather Assistant

- Developed a full-stack weather application using Spring Boot with real-time weather data.
- Integrated an AI assistant that answers weather-related queries using contextual current and forecast information.

03 Multi-Agent Research System

- Built a multi-agent AI workflow with specialized research, analysis and writer agents.
- Used RAG and LLM-based processing to generate structured research outputs.

04 Interactive Developer Portfolio

- Designed and developed a modern portfolio showcasing projects, technical skills and experience.
- Built an interactive, technology-focused interface with modern animations and responsive design.

TECHNICAL SKILLS

Languages Python, Java, C, C++, JavaScript, SQL

Web Development React, Spring Boot, HTML, CSS, REST APIs

Mobile Development Flutter, Dart

Databases MySQL, PostgreSQL, Oracle

AI / ML & Data Machine Learning, Data Analysis, RAG, LLMs, Data Preprocessing, RStudio

Tools & Platforms Git, GitHub, VS Code, Android Studio, Linux
